PROFESSIONAL SUMMARY

Full-stack software developer with 3 years of experience in Python and React. Focused on writing clean, well-tested code and building APIs that scale. Comfortable with containerised deployments.

TECHNICAL SKILLS

Python (FastAPI, Django) • React / TypeScript • REST APIs • PostgreSQL • Git • Docker • Redis • CI/CD

WORK EXPERIENCE

Software Developer — AlpineCode Technologies

May 2021 – Present (3.1 yrs)

- Built a multi-service backend in FastAPI with JWT authentication and RBAC.
- Developed React + TypeScript frontend consuming internal REST APIs.
- Set up Docker-based CI/CD pipeline reducing deployment cycles from 1 day to 2 hours.
- Implemented Redis caching layer; improved response times by 50% on heavy endpoints.

Junior Developer — HillSoft Labs

Dec 2020 – Apr 2021 (5 months)

- Developed CRUD APIs in Flask and wrote corresponding pytest unit tests.
- Helped migrate legacy PHP scripts to Python backend services.

EDUCATION

B.Tech – Computer Science, HNB Garhwal University, 2020
